

Airl has been a great access to me and my community. As a christian I can use Airl to witness to nonchristians. Most nonchristians I talk to think christian music is just hymms. With Airl i can show them that there is something different that can sound good and have a good impact in their life. So please keep the Jacksonville Station 89.5 FM. Also if you could boost the power some that would be greatly appreciated, as it will fade on the outer parts of the county.
